FINANCING THE GROWTH ENGINE

MAIN STREET IMPACT STORIES

FACES

"A couple years ago, we wanted to expand by opening a new FACES Lash Studio. **FACES has built a close, supportive relationship with our bank which has watched our business grow.** As a result, we were able to secure both the mortgage and loan on agreeable terms that let us get the lash studio off the ground. Now **the new business is thriving** and has generated enough cash that it allowed us to pay off the upfit loan already. **None of this would have been possible if it wasn't for our bank, which continues to be a valuable and reliable partner for our small business.**"
