

Key Vote Alert

May 21, 2025

To the Members of the U.S. House of Representatives:

The U.S. Chamber of Commerce strongly supports the One Big Beautiful Bill Act, which would permanently extend many of President Trump's pro-growth tax reforms, curb excessive federal spending, and advance important regulatory reforms.

This legislation will enhance America's global competitiveness, fuel long-term economic growth, and avoid the largest tax increase in U.S. history. It is particularly important to the continued success of America's small businesses, [with data showing](#) small businesses in districts across the country benefiting substantially. Earlier this year, the U.S. Chamber led [nearly 500 business organizations](#) in urging Congress to permanently extend the TCJA pro-growth tax reforms that help workers and businesses achieve their American dream and this legislation largely achieves that goal. The impact of a more competitive and stable tax code on businesses of all sizes, in communities all across the country, cannot be understated.

Like any large piece of legislation, there is always opportunity for refinement, and we look forward to continued collaboration with members of Congress and the administration as the process moves forward.

We urge you to support passage of this bill to keep moving the process closer to enactment of this crucial legislation to ensure a prosperous future for our nation.

Sincerely,

Rodney Davis
Senior Vice President
