About the Infrastructure Network

In the state of Kansas:

Roads

138,975 miles of roads, with **10%** in poor or mediocre condition

Bridges

5.2% of **24,891** bridges are deemed structurally deficient

Rail

4,854 miles of freight rail; **475** miles of passenger rail

Transit

80+ transit providers serve **over 7 million** riders annually

Ports and Waterways

14 waterways throughout the state

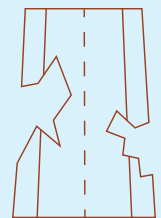

Airports

383 airports in the state

Moving People and Goods

Driving on deteriorated roads costs Kansas motorists **\$582 million**, or **\$288 per driver**, in the form of additional repairs, accelerated vehicle depreciation, and increased fuel consumption and tire wear.

Commuting:

85.3%

of workers in Kansas commute by driving

10.7%

use transit, walking, biking, or other modes of transportation

Freight:

\$212 billion

in domestic trade is shipped from the state each year

82%

of that volume moved by truck

Economic Impact

Safety

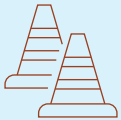

1,926

people died on Kansas highways from 2020 through 2025, an average of **385** fatalities per year.

1.14 ≈ 1.1

Kansas traffic fatality rate of **1.14** fatalities per **100** million vehicle miles traveled is **similar** to the national average of **1.1**.

33 work zone fatalities occurred in Kansas between 2020–2024.

1,301 structurally deficient bridges pose safety risks if not addressed.

Federal Funding for Infrastructure

Federal funding accounts for **26% of spending** on road and bridge projects...

and provides **40% of the revenue** that keeps transit systems operating and investing in new projects.

IIJA Allocation (2021–2026)

Kansas has received approximately **\$2.87 billion** in federal transportation funding under the Infrastructure Investment and Jobs Act.

What's at Stake

Without reauthorization at current or increased levels, **Kansas risks losing federal funding** needed to maintain vital corridors like I-70, connect communities to jobs and essential services, and support the movement of agricultural products across the state and nation.
