The Coronavirus Aid, Relief, and Economic Security (CARES) Act allocated $350 billion to help small businesses keep workers employed amid the pandemic and economic downturn. Known as the Paycheck Protection Program (PPP), the initiative provides 100% federally guaranteed loans to small businesses.

Importantly, these PPP loans may be forgiven if borrowers maintain their payrolls during the crisis or restore their payrolls afterward.

**Update:** Congress recently approved an additional $310 billion in funding to restore the PPP Program, which had run out of money.

The administration’s PPP program guidelines can be found at [www.treasury.gov](http://www.treasury.gov), and the U.S. Small Business Administration's search tool to find a bank that offers PPP loans can be found at [www.sba.gov/paycheckprotection/find](http://www.sba.gov/paycheckprotection/find).

The U.S. Chamber of Commerce has issued this step-by-step guide to help small businesses and self-employed individuals check eligibility and prepare to apply for a loan. Here’s what you need to know.
Am I ELIGIBLE?

You are eligible to apply for a PPP loan if you are:

- A small business with 500 or fewer employees
- Defined as “small” by SBA Size Standard that allows for higher employee threshold or is revenue based; or
- A small business with maximum tangible net worth up to $15 million and the average net income for full 2 fiscal years prior to application does not exceed $5 million
- A 501(c)(3) with 500 or fewer employees
- A sole proprietor, independent contractor, or self-employed
- A Tribal business concern that meets the SBA size standard
- A 501(c)(19) Veterans Organization that meets the SBA size standard

In addition, some special rules may make you eligible:

- If you are in the accommodation and food services sector (NAICS 72), the 500-employee rule is applied on a per physical location basis
- If you are operating as a franchise or receive financial assistance from an approved Small Business Investment Company the normal affiliation rules do not apply
- Small businesses that have minority shareholders (private equity or venture capital) can still qualify if those shareholders relinquish rights

What lenders will NOT LOOK FOR

- That the borrower sought and was unable to obtain credit elsewhere.
- A personal guarantee is not required for the loan.
- No collateral is required for the loan.
How much can I BORROW?

Loans can be up to 2.5 x the borrower’s average monthly payroll costs, not to exceed $10 million.

How do I calculate my average monthly PAYROLL COSTS?

**INCLUDED Payroll Cost:**

1. **For Employers:** The sum of payments of any compensation with respect to employees that is a:
   - salary, wage, commission, or similar compensation;
   - payment of cash tip or equivalent;
   - payment for vacation, parental, family, medical, or sick leave;
   - allowance for dismissal or separation;
   - payment for group health care and retirement benefits;
   - payment of state or local tax assessed on the compensation of the employee.

2. **For Sole Proprietors, Independent Contractors, and Self-Employed Individuals:** The net income not more than $100,000 in one year.

**EXCLUDED Payroll Cost:**

1. Compensation of an individual employee in excess of an annual salary of $100,000 (note: employer contributions to healthcare and retirement benefits are not part of amount deemed in excess of $100,000 annual salary).
2. Employer portion of payroll taxes.
3. Any compensation of an employee whose principal place of residence is outside of the United States.
4. Qualified sick leave wages for which a credit is allowed under section 7001 of the Families First Coronavirus Response Act (Public Law 116–5127); or qualified family leave wages for which a credit is allowed under section 7003 of the Families First Coronavirus Response Act.

NON SEASONAL EMPLOYERS:

- Maximum loan = 2.5 x Average total monthly payroll costs incurred during 2019 or one year prior to the loan date.
- For businesses not operational in 2019:
  - 2.5 x Average total monthly payroll costs incurred for January and February 2020.

SEASONAL EMPLOYERS:

- Maximum loan = 2.5 x Average monthly payroll for an 8-week period between February 15 or March 1, 2019 and June 30, 2019.
  - Payments deferred for six months.
  - 1.00% fixed interest rate.
  - Loan is due in two years.

Borrowers can refinance a SBA Economic Injury Disaster Loan (EIDL) into a PPP loan: The EIDL amount is added to the payroll calculation but may not exceed the $10 million PPP loan.

Prepared by the U.S. CHAMBER OF COMMERCE
Borrowers are eligible to have their loans forgiven.

How Much?
A borrower is eligible for loan forgiveness equal to the amount the borrower spent on the following items during the 8-week period beginning on the date of the origination of the loan:

- Payroll costs (using the same definition of payroll costs used to determine loan eligibility)
- Interest on the mortgage obligation incurred in the ordinary course of business
- Rent and utility payments
- Interest on other debt obligations incurred before February 15, 2020

**NOTE:** Not more than 25% of the forgiven amount may be for non-payroll costs.

How could the forgiveness be reduced?
The amount of loan forgiveness calculated above is reduced if there is a reduction in the number of employees or a reduction of greater than 25% in wages paid to employees. Specifically:

**Reduction based on reduction of number of employees**

**PAYROLL COST**
Calculated on page 2

\[
\text{Average Number of Full-Time Equivalent Employees (FTEs)} \times \frac{1}{2}
\]

**Option 1:**
Average number of FTEs per month from February 15, 2019 to June 30, 2019

**Option 2:**
Average number of FTEs per month from January 1, 2020 to February 29, 2020

**For Seasonal Employers:**
Average number of FTEs per month from February 15, 2019 to June 30, 2019

**Reduction based on reduction in salaries**

\[
\text{PAYROLL COST} \div \text{Average Number of Full-Time Equivalent Employees (FTEs)}
\]

For any employee who did not earn during any pay period in 2019 wages at an annualized rate more than $100,000, the amount of any reduction in wages that is greater than 25% compared to their most recent full quarter.

What if I bring back employees or restore wages?
Reductions in employment or wages that occur between February 15, 2020 and April 26, 2020 (as compared to February 15, 2020) shall not reduce the amount of loan forgiveness if by June 30, 2020 the borrower eliminates the reduction in employees or reduction in wages.
