

# U.S. Chamber of Commerce Task Force on Climate Actions

## WHO CAN JOIN

Open to all U.S. Chamber members

## GOALS

- Understand how and for what purposes businesses across industries are internally pricing carbon.
- Gain an understanding of the implications and issues associated with carbon pricing and other potential climate actions.
- Learn how carbon pricing policies outside of the U.S. are impacting companies and issues.
- Recognize the extent to which and how businesses are calculating the risks and costs to the business of climate change.
- Ascertain the issues associated with explicit (e.g., carbon tax or cap and trade) and implicit (e.g., regulation) carbon price mechanisms.
- Promote a dialogue among companies and sectors.

*The specifics learned will help the Chamber inform and contribute to the creation of proposed climate change policies.*

For more information on joining the task force, contact  
Chuck Chaitovitz at [CChaitovitz@uschamber.com](mailto:CChaitovitz@uschamber.com)
