1. Motion: To introduce an item or propose a decision or action, a motion must be (“I move that…””). A second motion must then also be made. After discussion, the group votes on the motion.

2. Postpone Indefinitely: This tactic is used to kill a motion.

3. Amend: This is the process used to change a motion under consideration.

4. Commit: This is used to place a motion in committee, requires a second and a majority vote. At the next meeting the committee is required to prepare a report on the motion committed. If an appropriate committee exists, the motion goes to that committee.

5. Committees: Committee reports don’t require a motion and typically don’t need a second for discussion and vote.

6. Table: To table an item is to postpone the business at hand for consideration later in the meeting or at another time.

7. Adjourn: A motion is made to end the meeting. A second motion is required. A majority is then required for the meeting to be adjourned (ended).
