The U.S. Chamber of Commerce announces the formation of the Center for Capital Markets Competitiveness to:

- Modernize the 70-year-old regulatory framework governing our markets;
- Eliminate duplicative and overlapping layers of regulation and enforcement that undermine efficiency; and
- Enact commonsense reforms to our legal system that discourage frivolous lawsuits.

Now the Real Work Begins.

Visit us at www.CenterForCapitalMarkets.com for more information on our aggressive agenda and how you can get involved.
