

## Stephanie J. Pronk

### Senior Vice President, Health Transformation Team Leader

Stephanie Pronk is a senior vice president and leads Aon's U.S. National Health Transformation Team. Stephanie combines more than 30 years of experience in developing, implementing and evaluating health improvement and benefit strategies while using the power of data analytics to provide evidence-based health solutions for clients that improve health and productivity while positively impacting the bottom line.

Prior to Aon Hewitt, Stephanie served as vice president, employer and health management consulting at Ingenix. Her experience at Ingenix included developing deep knowledge of data and technology product development processes, domestic and international health care consulting, data warehouse and measurement and evaluation of health strategies and programs. Stephanie served as the chief health officer for RedBrick Health where she was responsible for developing and executing on the health and consumer engagement strategies of the company. She provided health leadership to the various initiatives including product and service development, partnerships and alliances and day to day operations. Stephanie developed and led national health management consulting operations for various human capital consulting organizations, including Watson Wyatt and William M. Mercer. In this role, she helped clients find new approaches to improving, maintaining and managing health focusing on the complete spectrum of health conditions—from prevention to risk reduction to disease management. Stephanie also brings actual hands on experience of developing, implementing and evaluating health promotion programs at Westinghouse Electric Corporation, where she was nationally recognized for her innovative program design and results. Beginning her career in the University academic setting, she taught health-related courses and conducted research in the areas of obesity and physical activity.

Stephanie serves on the National Business Group on Health (NBGH) Institute on Innovation in Workforce Well-being Board and actively involved in the Clinton Foundation Health Matters Initiatives. In addition, she serves as a member of the Harvard Total Worker Health® Dissemination Advisory Board.

Stephanie holds a bachelor's degree in physical education and health from Hastings College and a master's degree in health education from the University of Nebraska at Kearney (formally Kearney State College). Stephanie has published in various professional health journals and is a featured speaker at national and global conferences as well as quoted in the popular press regularly.
