

HEALTH CARE

Access and Affordability

- Enable greater flexibility for businesses as they offer health care coverage to their employees.
- Support the expansion of Association Health Plans.
- Adopt policies to stabilize the individual and small group markets.
- Improve access to meaningful cost and quality information for consumers while protecting the ability of private companies to enter into negotiated contractual arrangements.
- Facilitate the adoption of value-based insurance and reward high-quality providers.

Wellness, Innovation, and Value

- Facilitate and promote workplace wellness programs.
- Protect consumer safety by stopping unregulated foreign drug imports and curbing the opioid epidemic.
- Oppose price controls and efforts that reduce contractual flexibility in our health care system.
- Oppose the adoption of a single-payer, government-run health care system.
- Support reforms that lead to more value-based, quality-focused, and coordinated care.

Expand access to and improve the affordability of high-quality health care services for all Americans.
